Admission is totally based on admission test, Students who do not qualify the admission test, will not be able to get admission. On the basis of the performance, in the admission test, scholarship* will be given to the meritorious students. Second chance of admission test for scholarship will not be given under any circumstances.

Up to 60% scholarship* will be awarded to the meritorious students, and separate ranker's batch will be formed for meritorious students, to maintain healthy competition among the students.

Scholarship can be availed only if the admission is taken before 25 January 2019. After 25 January 2019, scholarship will not be applicable. Students seeking for the admission after 28 February 2019 will have to bear the late fees.

We, here at **Zerokelvin Education** offering four types of courses.

1. Four year classroom course (students going to 9)
2. Three year classroom course (students going to 10)
3. Two year classroom course (students going to 11)
4. One year special classroom course (students going to 12)

Students seeking admission for all the three subjects (Physics, Chemistry and Maths) will get the extra benefits in the total fee structure, which will not be applicable for single or two subjects.
